

SOCIETY OF 1870

As a cold north wind howled through the trees on a dark night in 1870, Theta Nu Epsilon was formed at Wesleyan College. In 1905, the University of Alabama was graced with a chapter of this national organization. Since that time, we have grown into a service organization whose influence extends throughout Alabama and the U.S. We are the Men of One.

We are a fraternity of fraternities (and since the 1970s, sororities). We unite the best of greek letter societies into a brotherhood, pledged to assist the business world. One standard we base our membership on is the future usefulness of newcomers to our union and its members.

We are proud of our history at the University. Theta Nu Epsilon has elected an SGA president 68 times in the 75 years of the SGA's existence. This is because the SGA is ours. Our brethren formed it in 1914.

The SGA provides our membership with an opportunity to experience politics. The SGA is a training ground for us. From the University, we go on to become lawyers, attorney generals, governors and senators. To provide these opportunities to our members, we have established a monetary basis that allows any candidate we support for SGA president to begin a campaign with financing of \$13,000 and approximately 3,000 guaranteed votes.

Our members have brought glory to the University, and we are proud to have many campus buildings named for members of the brotherhood. A walk around campus will take you to places with names like Anderson, Barnard, Coleman, Comer, Ferguson, Fitts, and Palmer. We are proud that these names also have appeared on our membership rosters.

We are the Group. Our membership and influence are without compare. We have the resources to destroy anyone who threatens our existence. We deserve respect. We are a cornerstone of the University, and we are here to stay.
